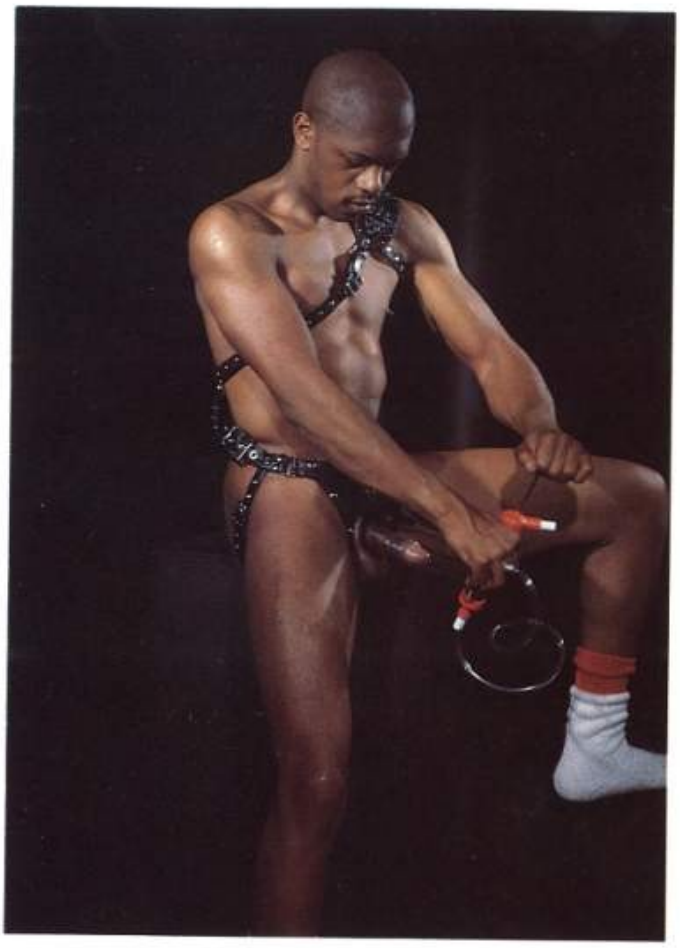
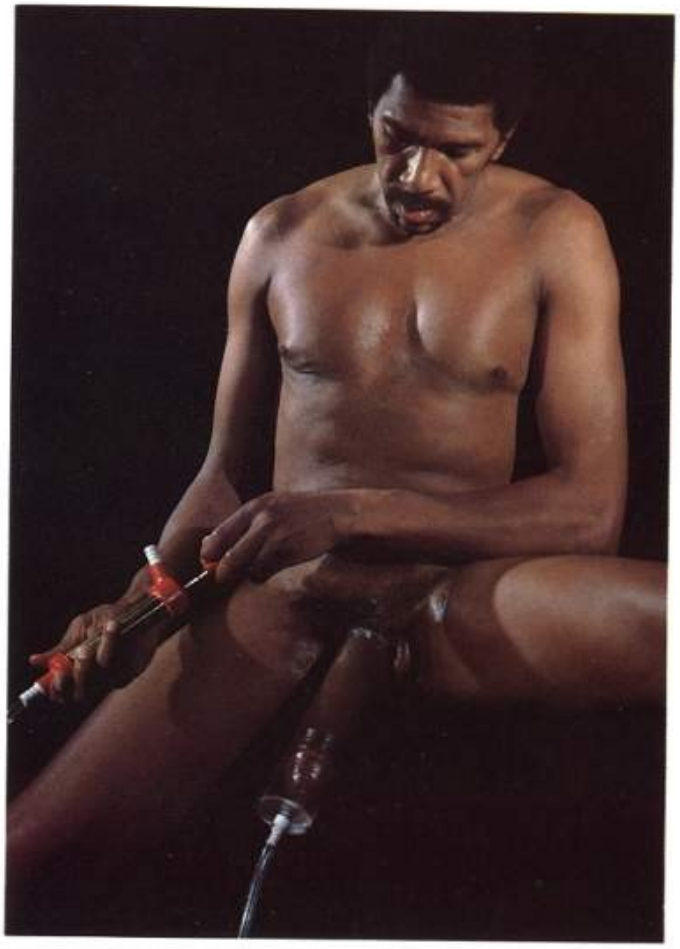
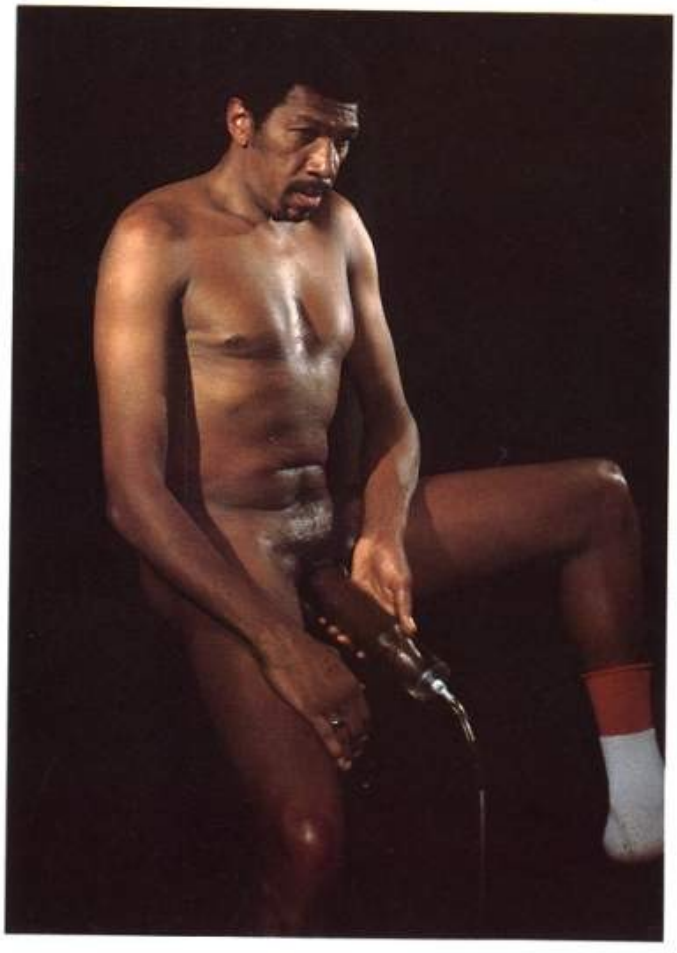
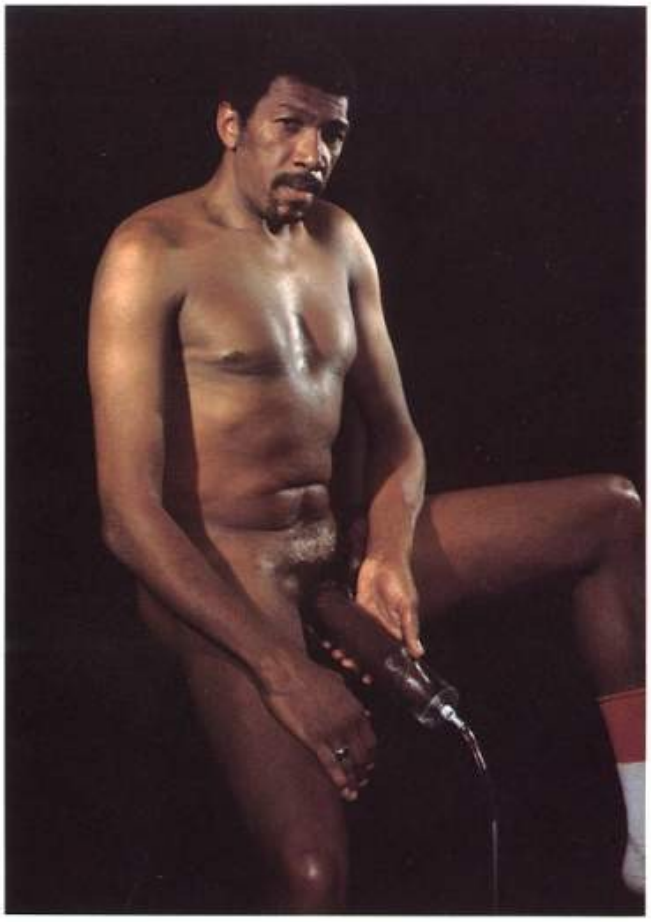
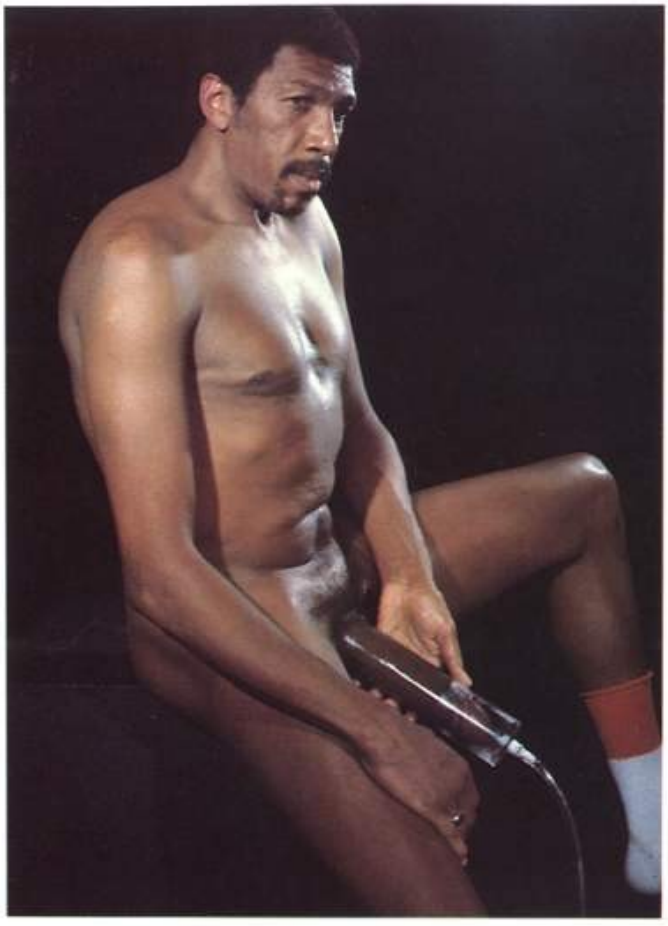
"My big, black cock swelled to amazing proportions within the tight sucking confines of the plastic cylinder. As I continued to pump my pecker became almost gargantuan in size -- thick, long, throbbing."

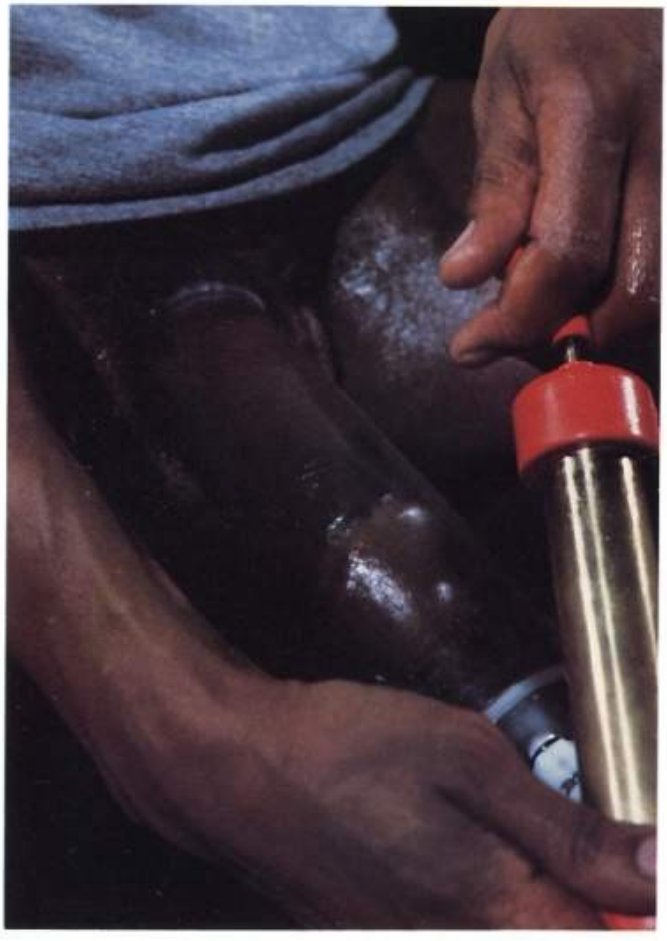


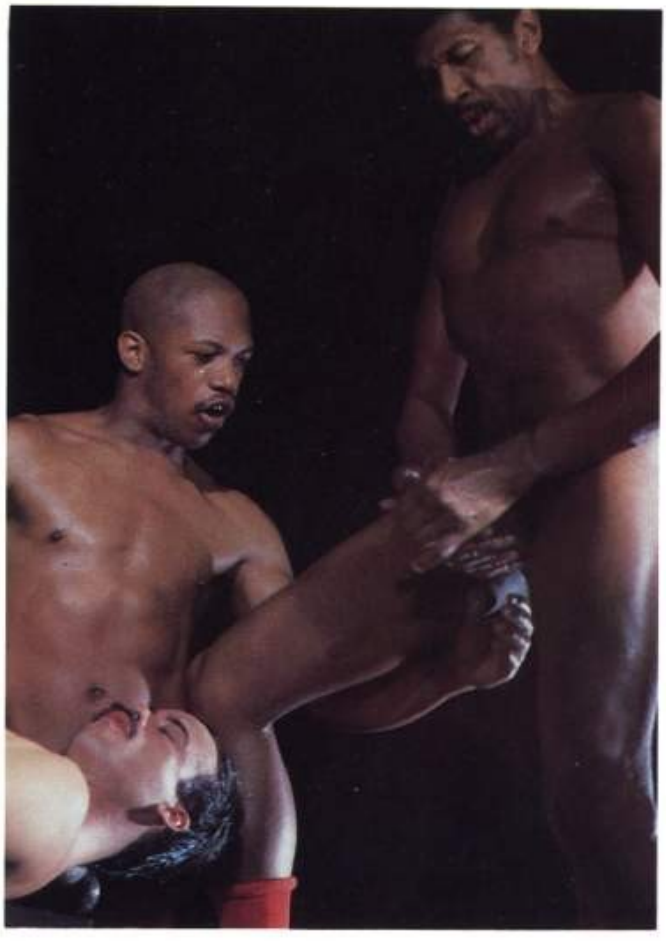


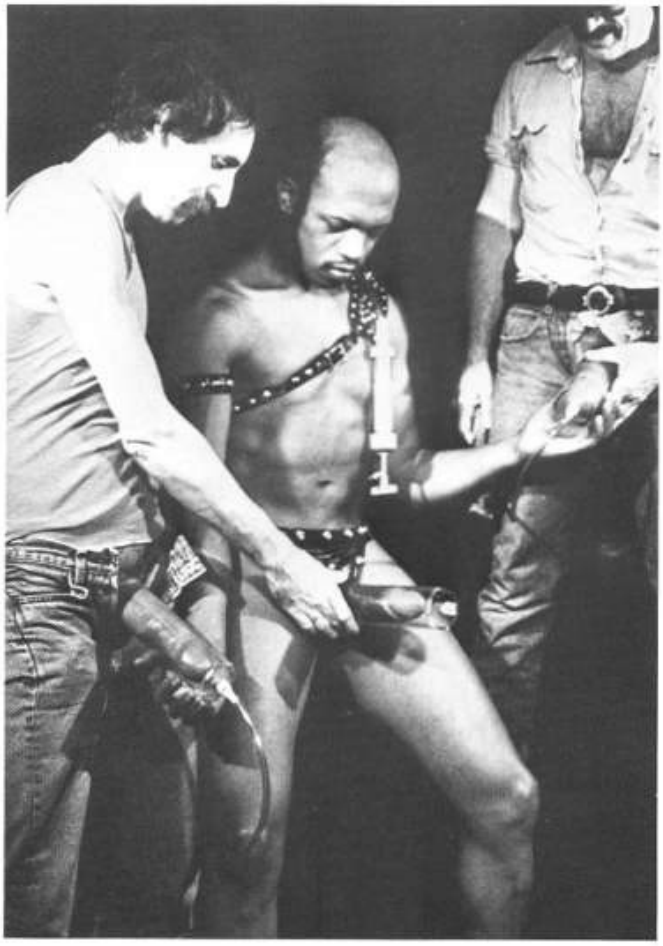


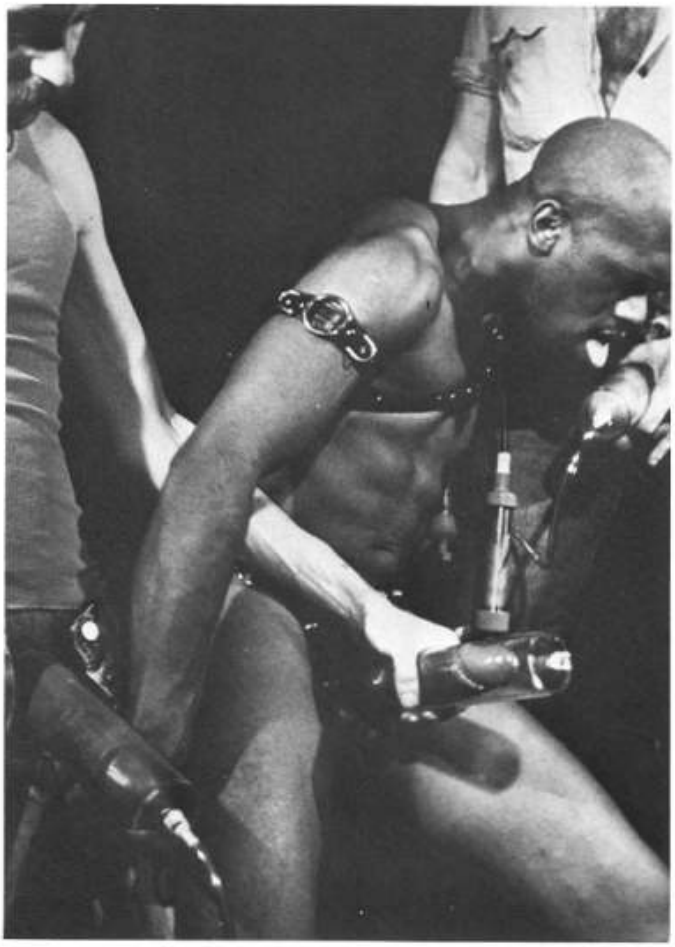




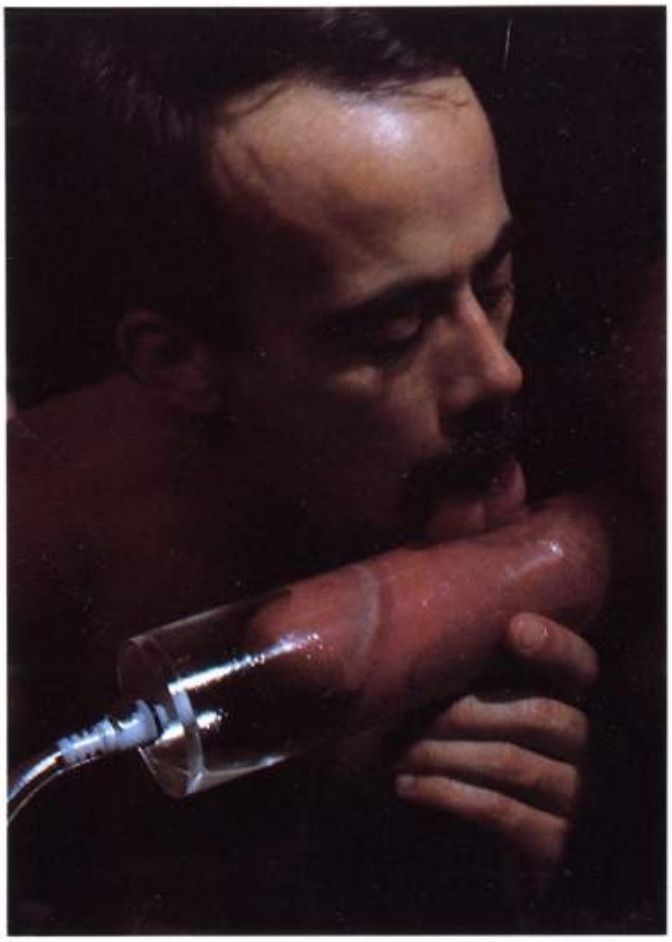


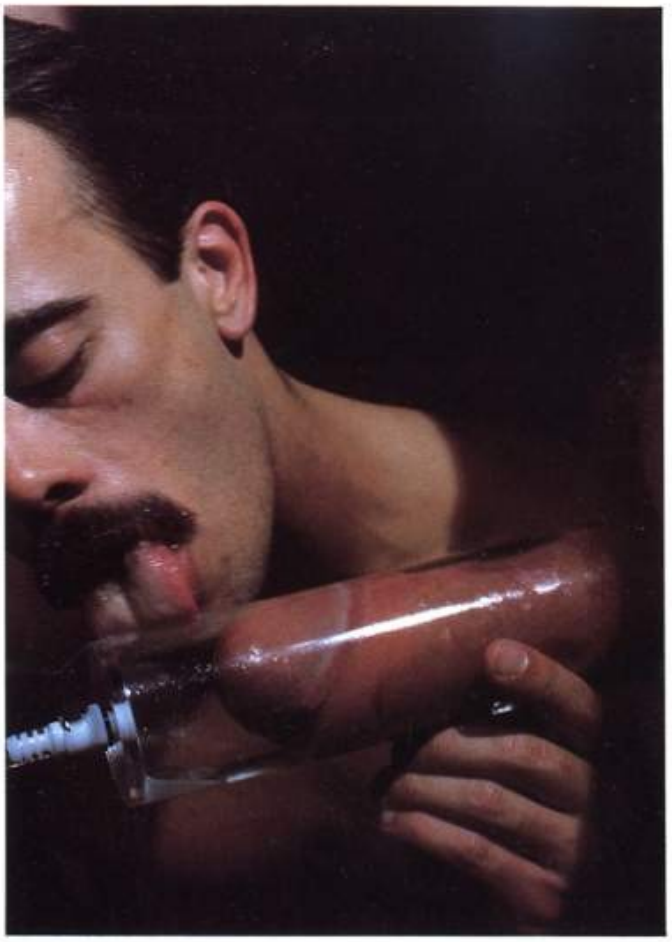


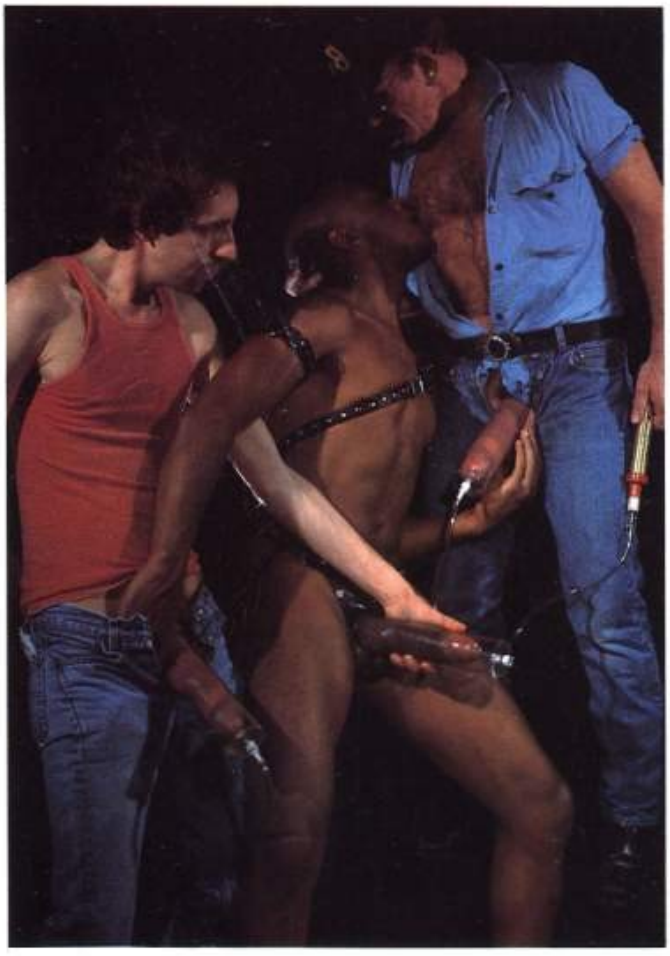




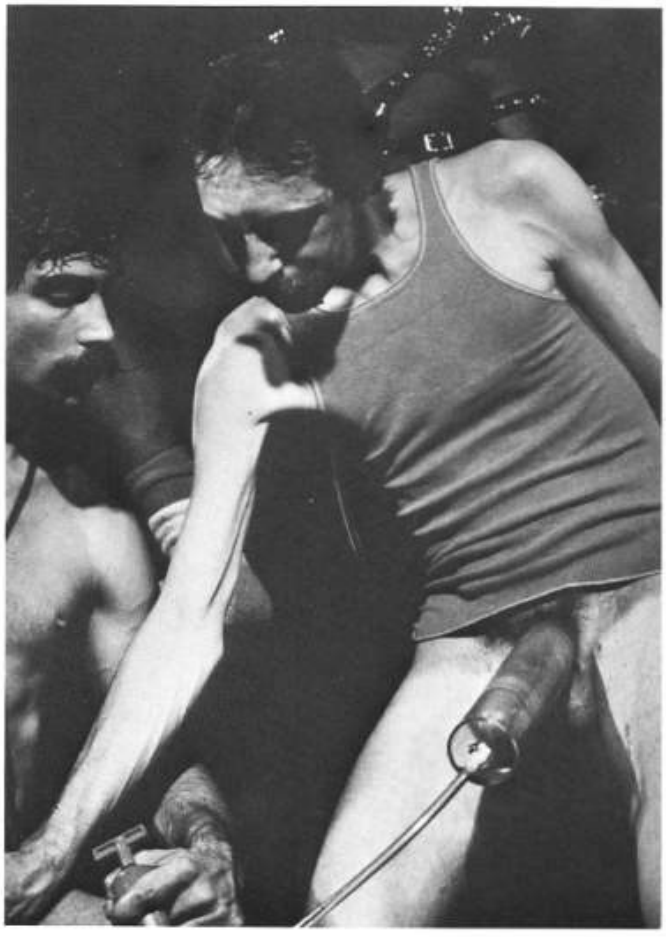
"The persistent sucking action of the pump drew my cock out longer and longer, until finally the head brushed the very end of the cylinder, coating it with the sticky substance dribbling from the end."

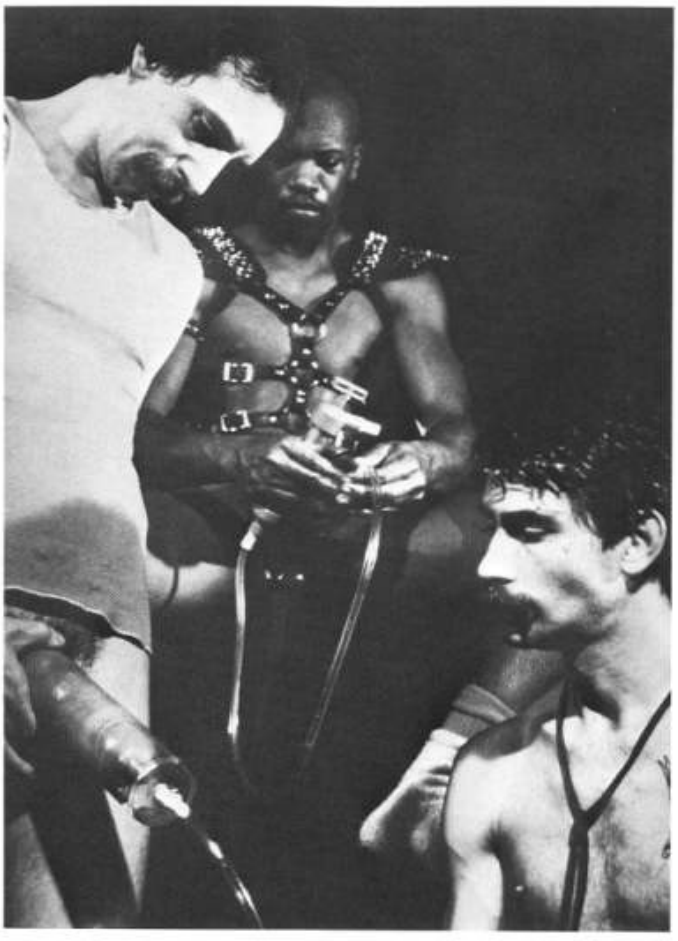


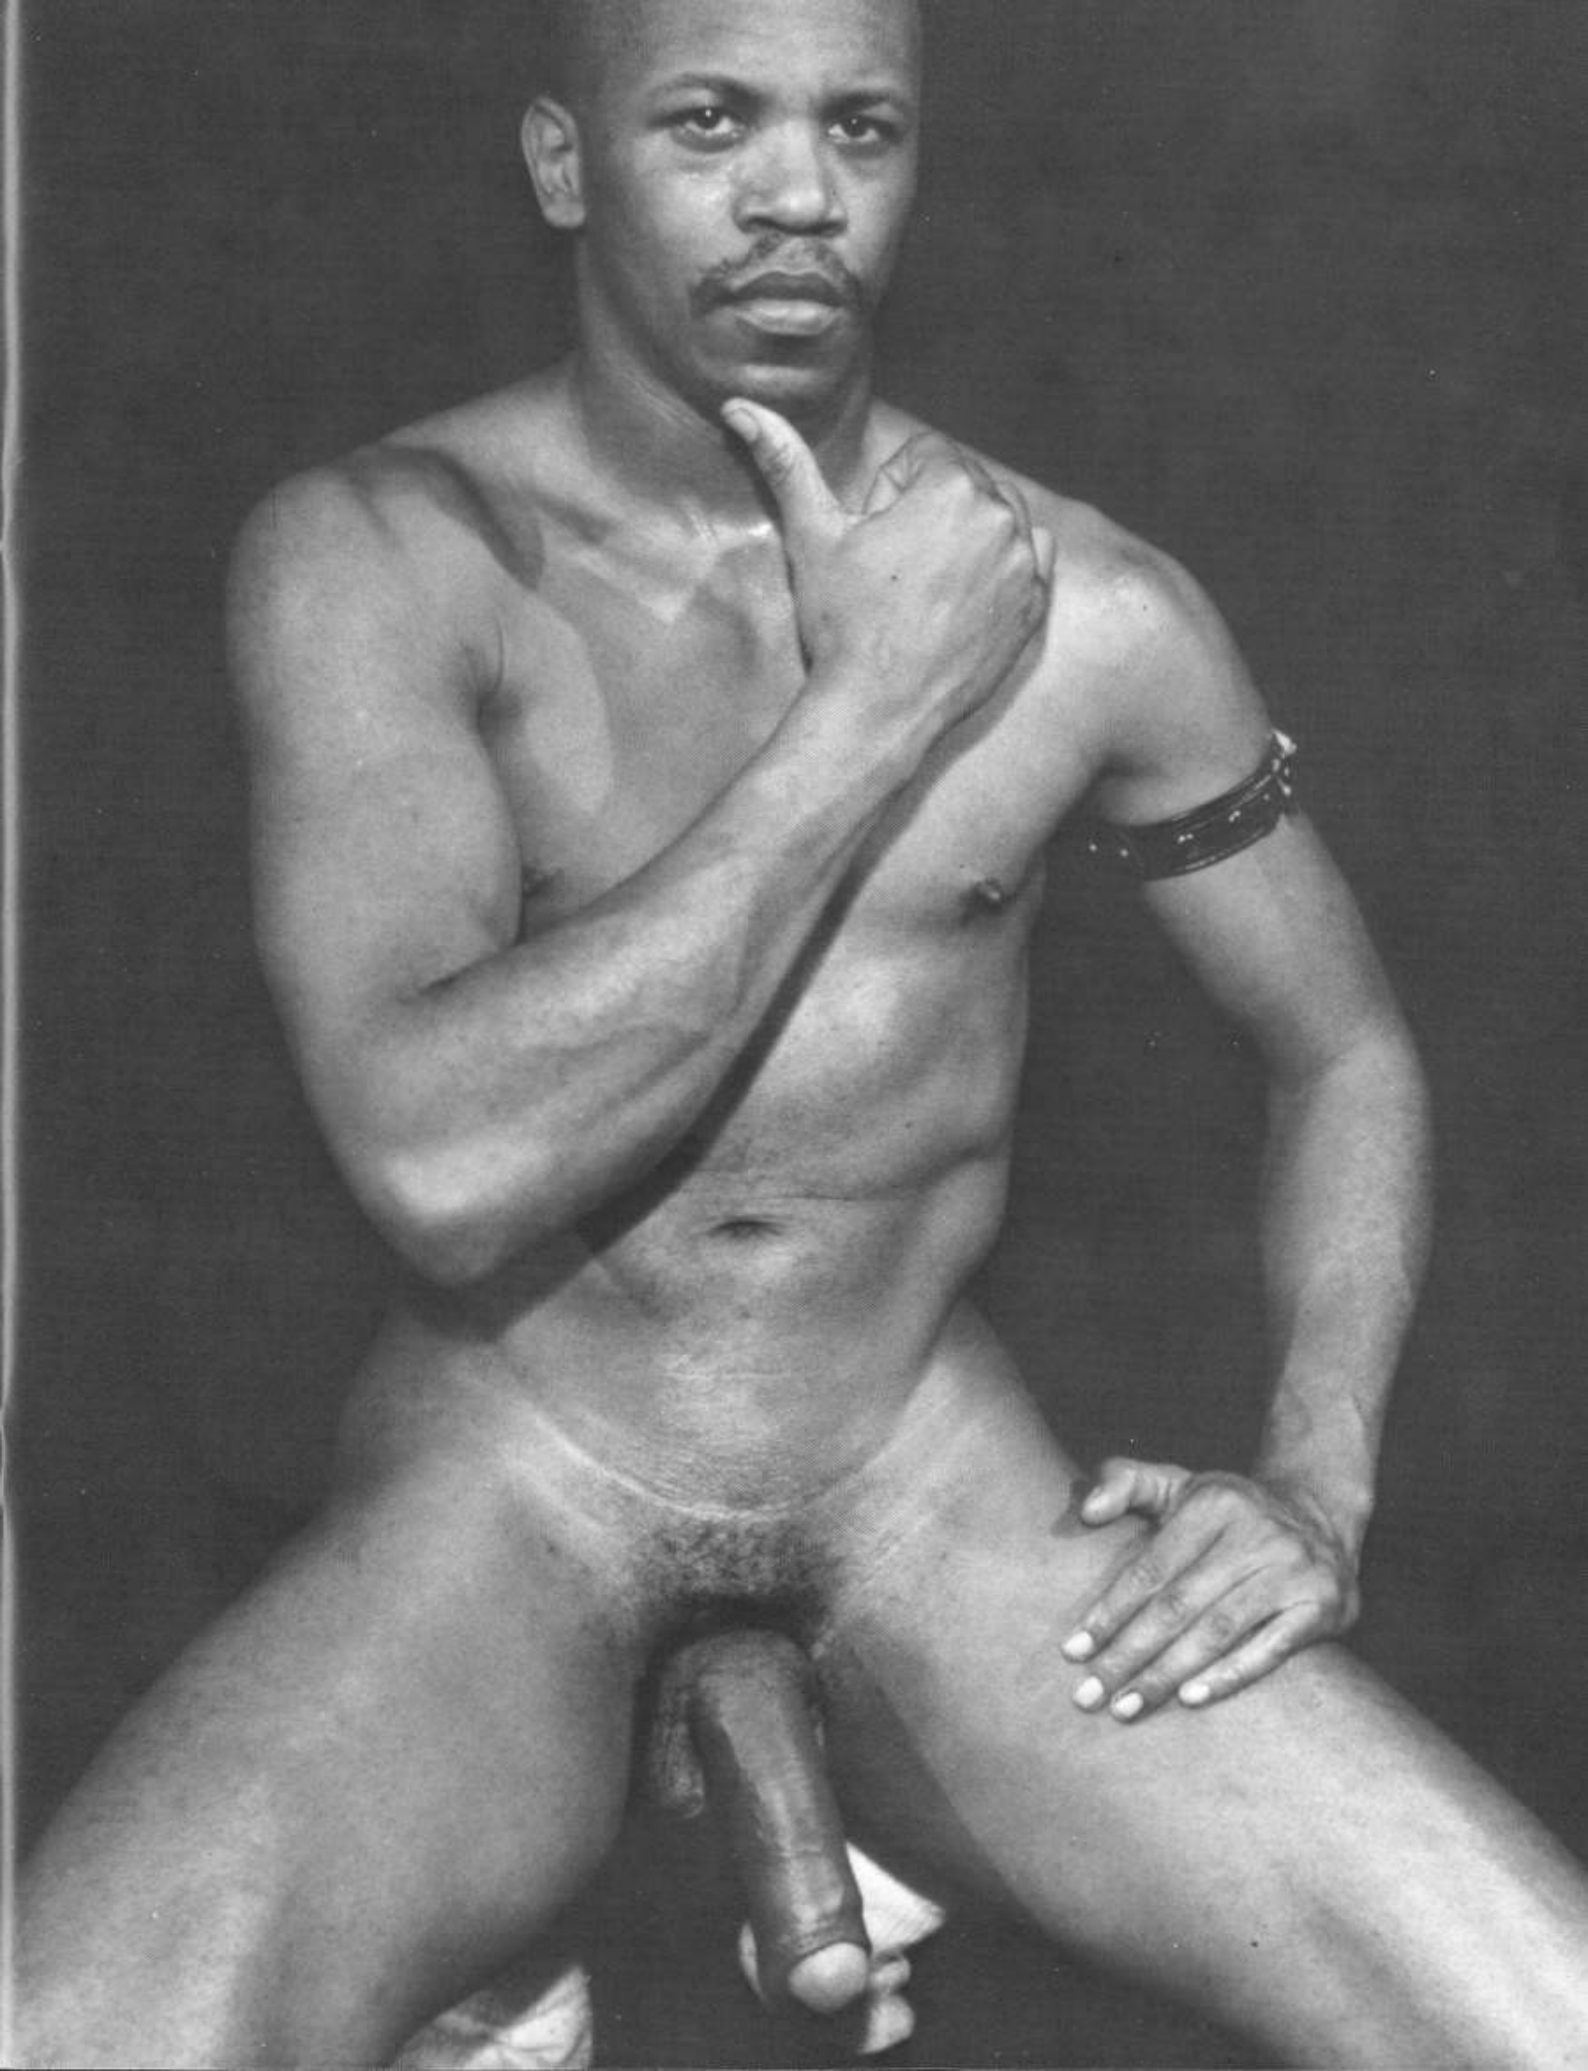


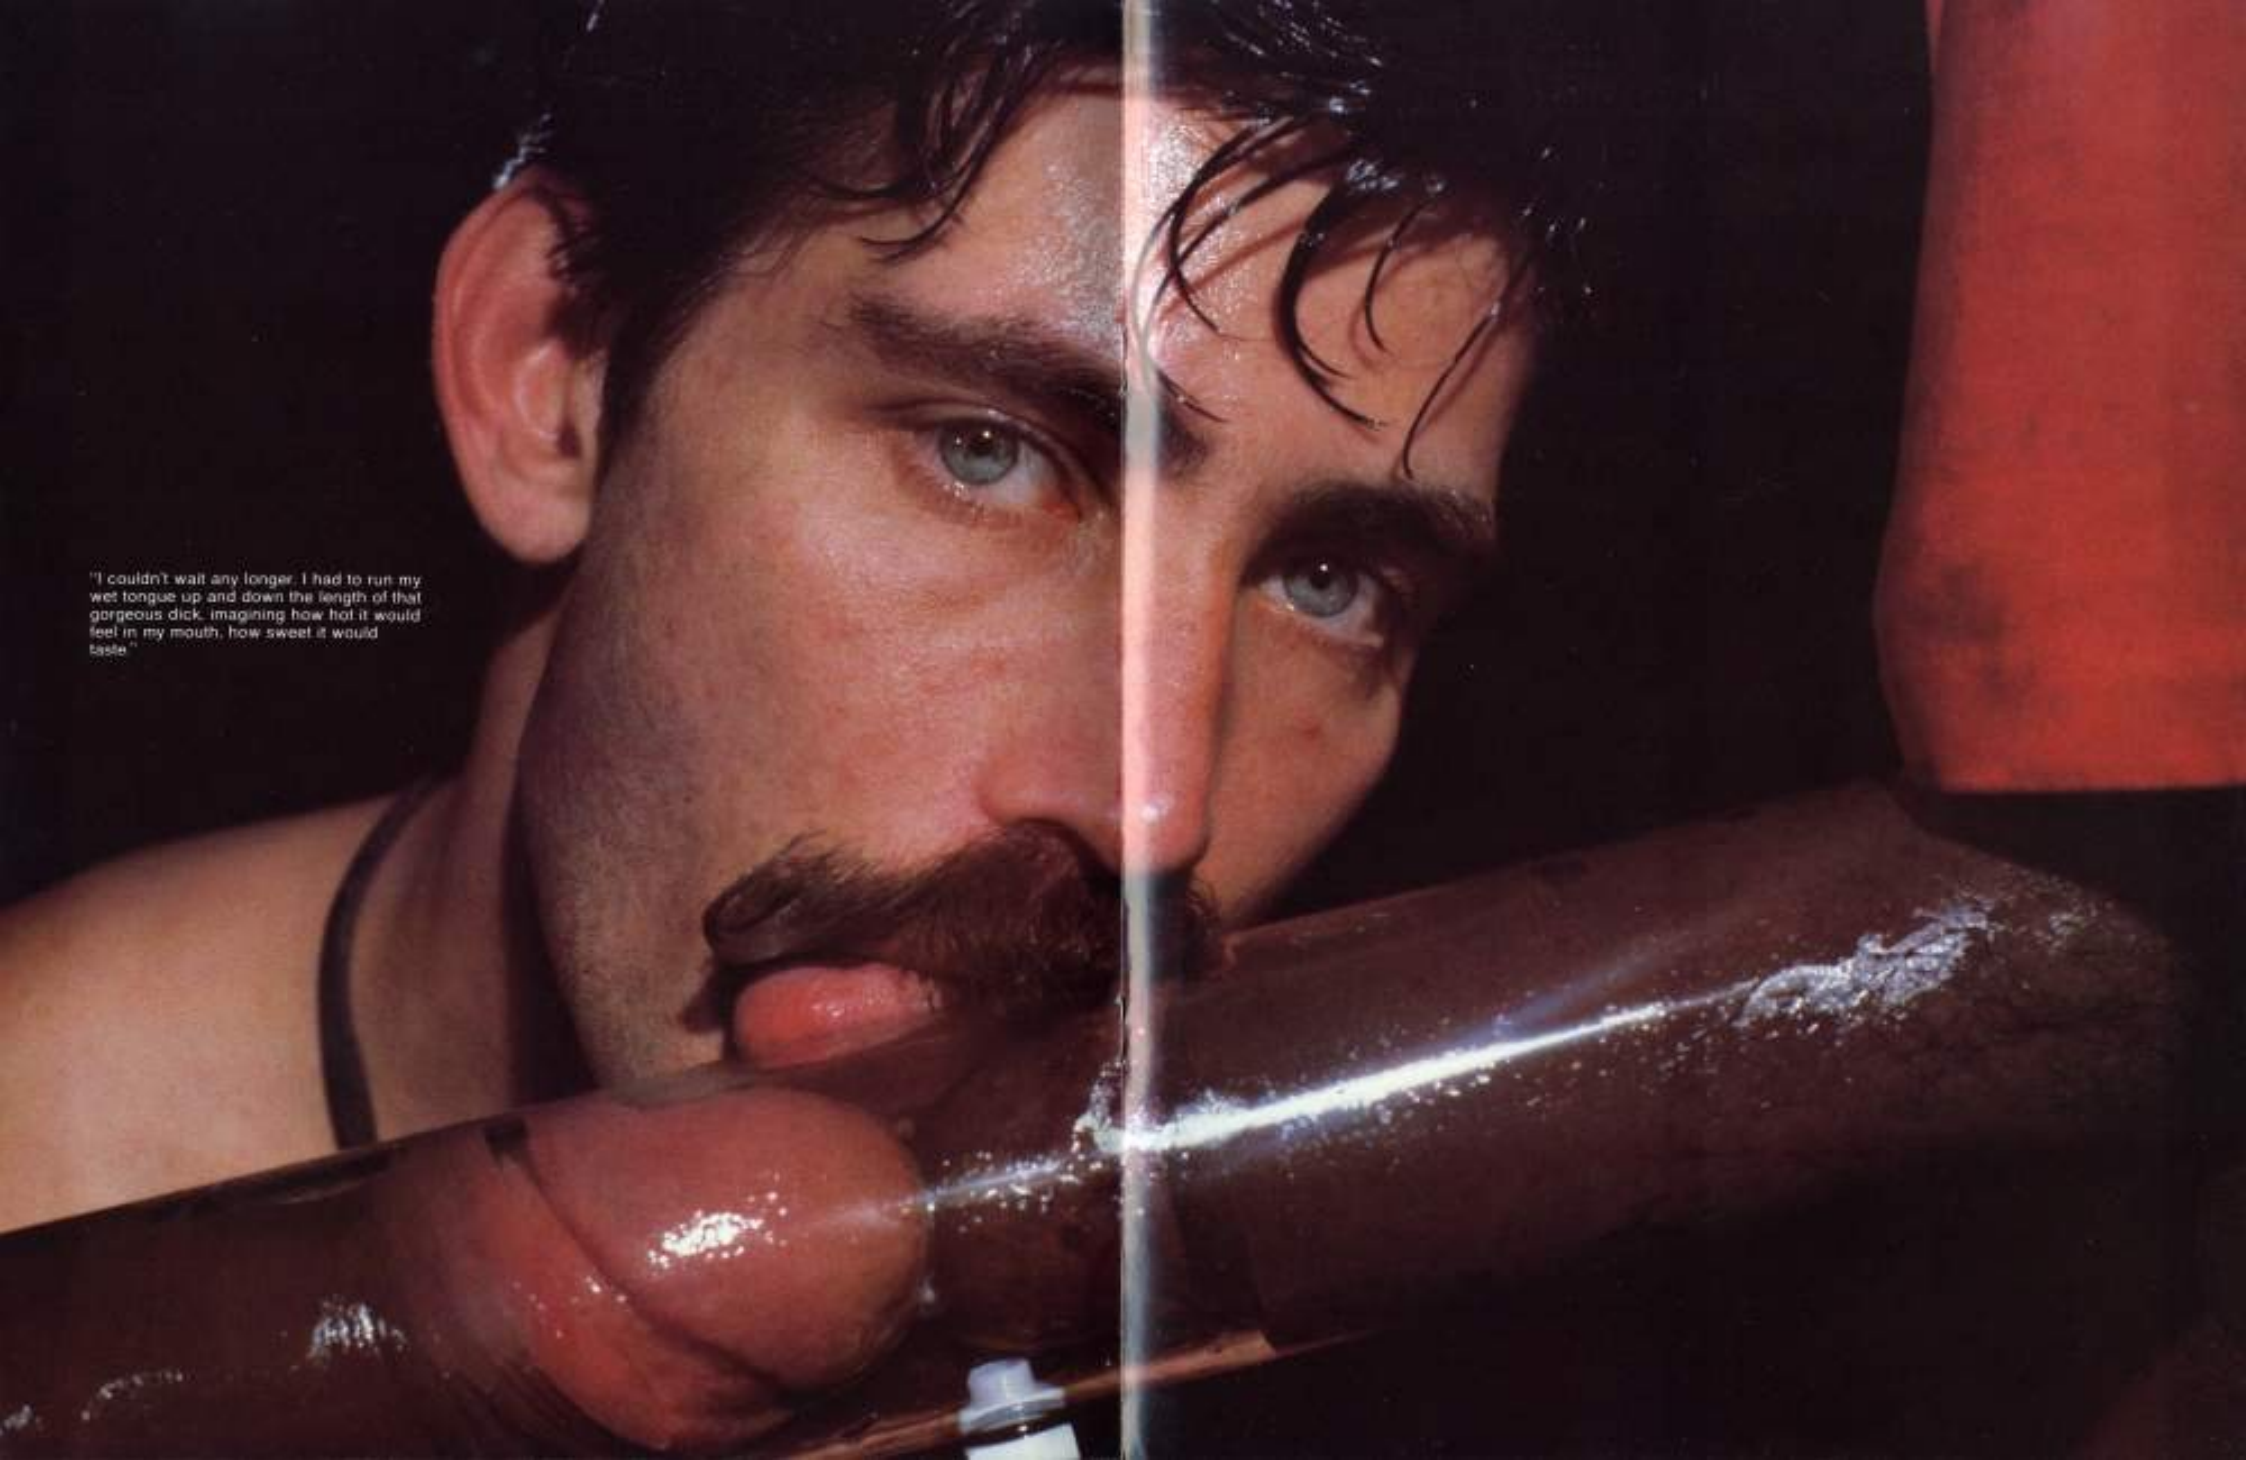


"Look at those huge, pulsating dicks, man! They've never been so hard, so long, so thick -- so hot and ready! Awesome!"

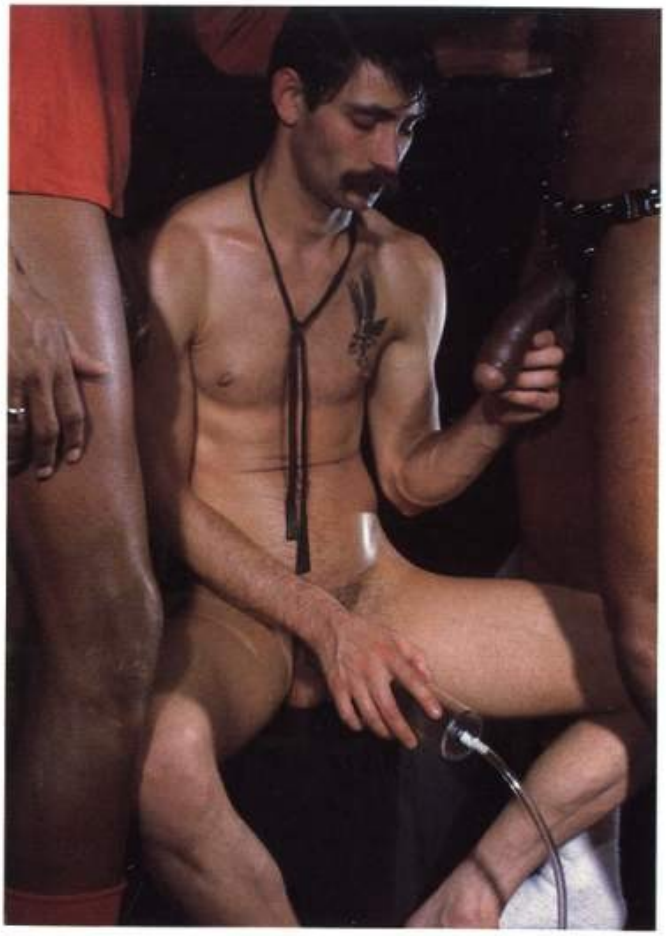


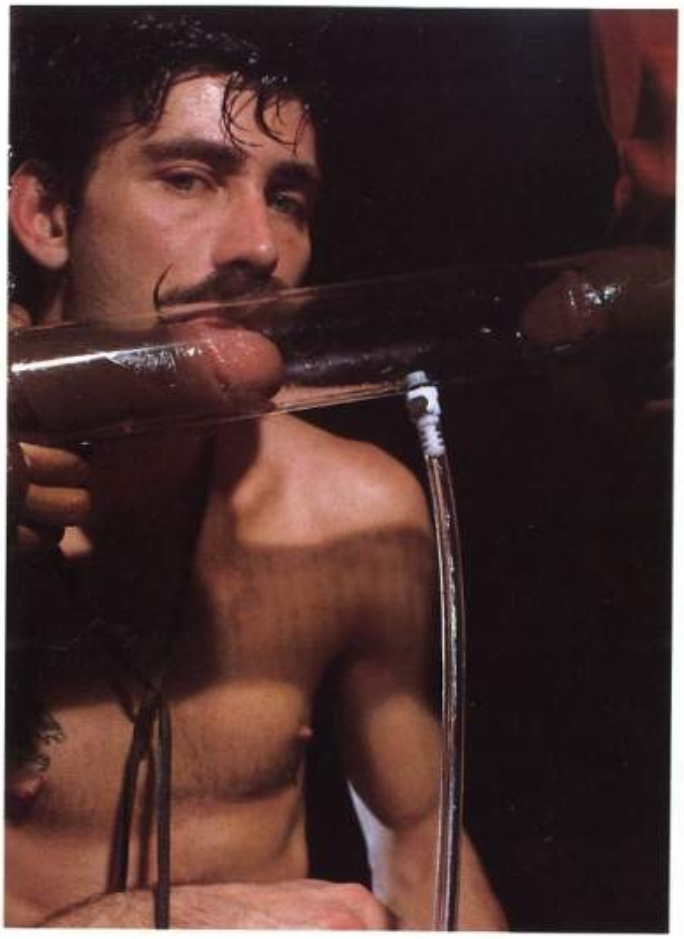


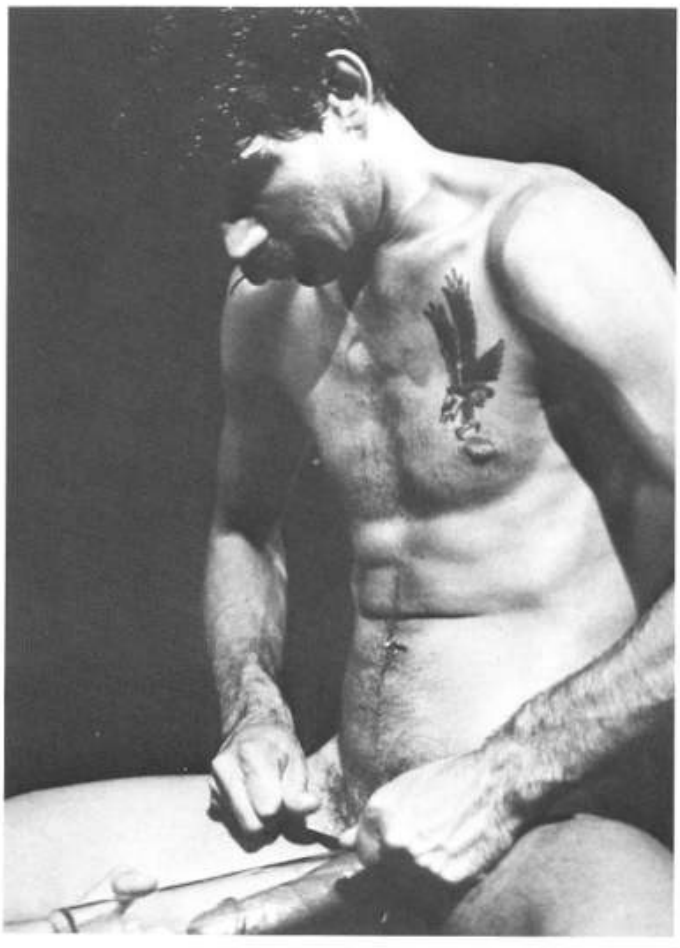


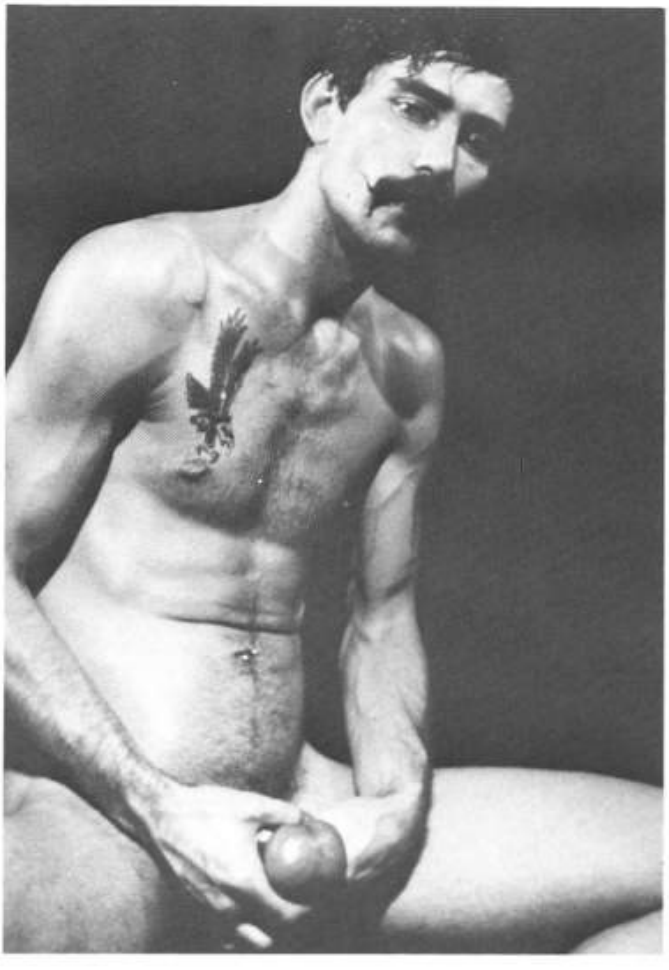


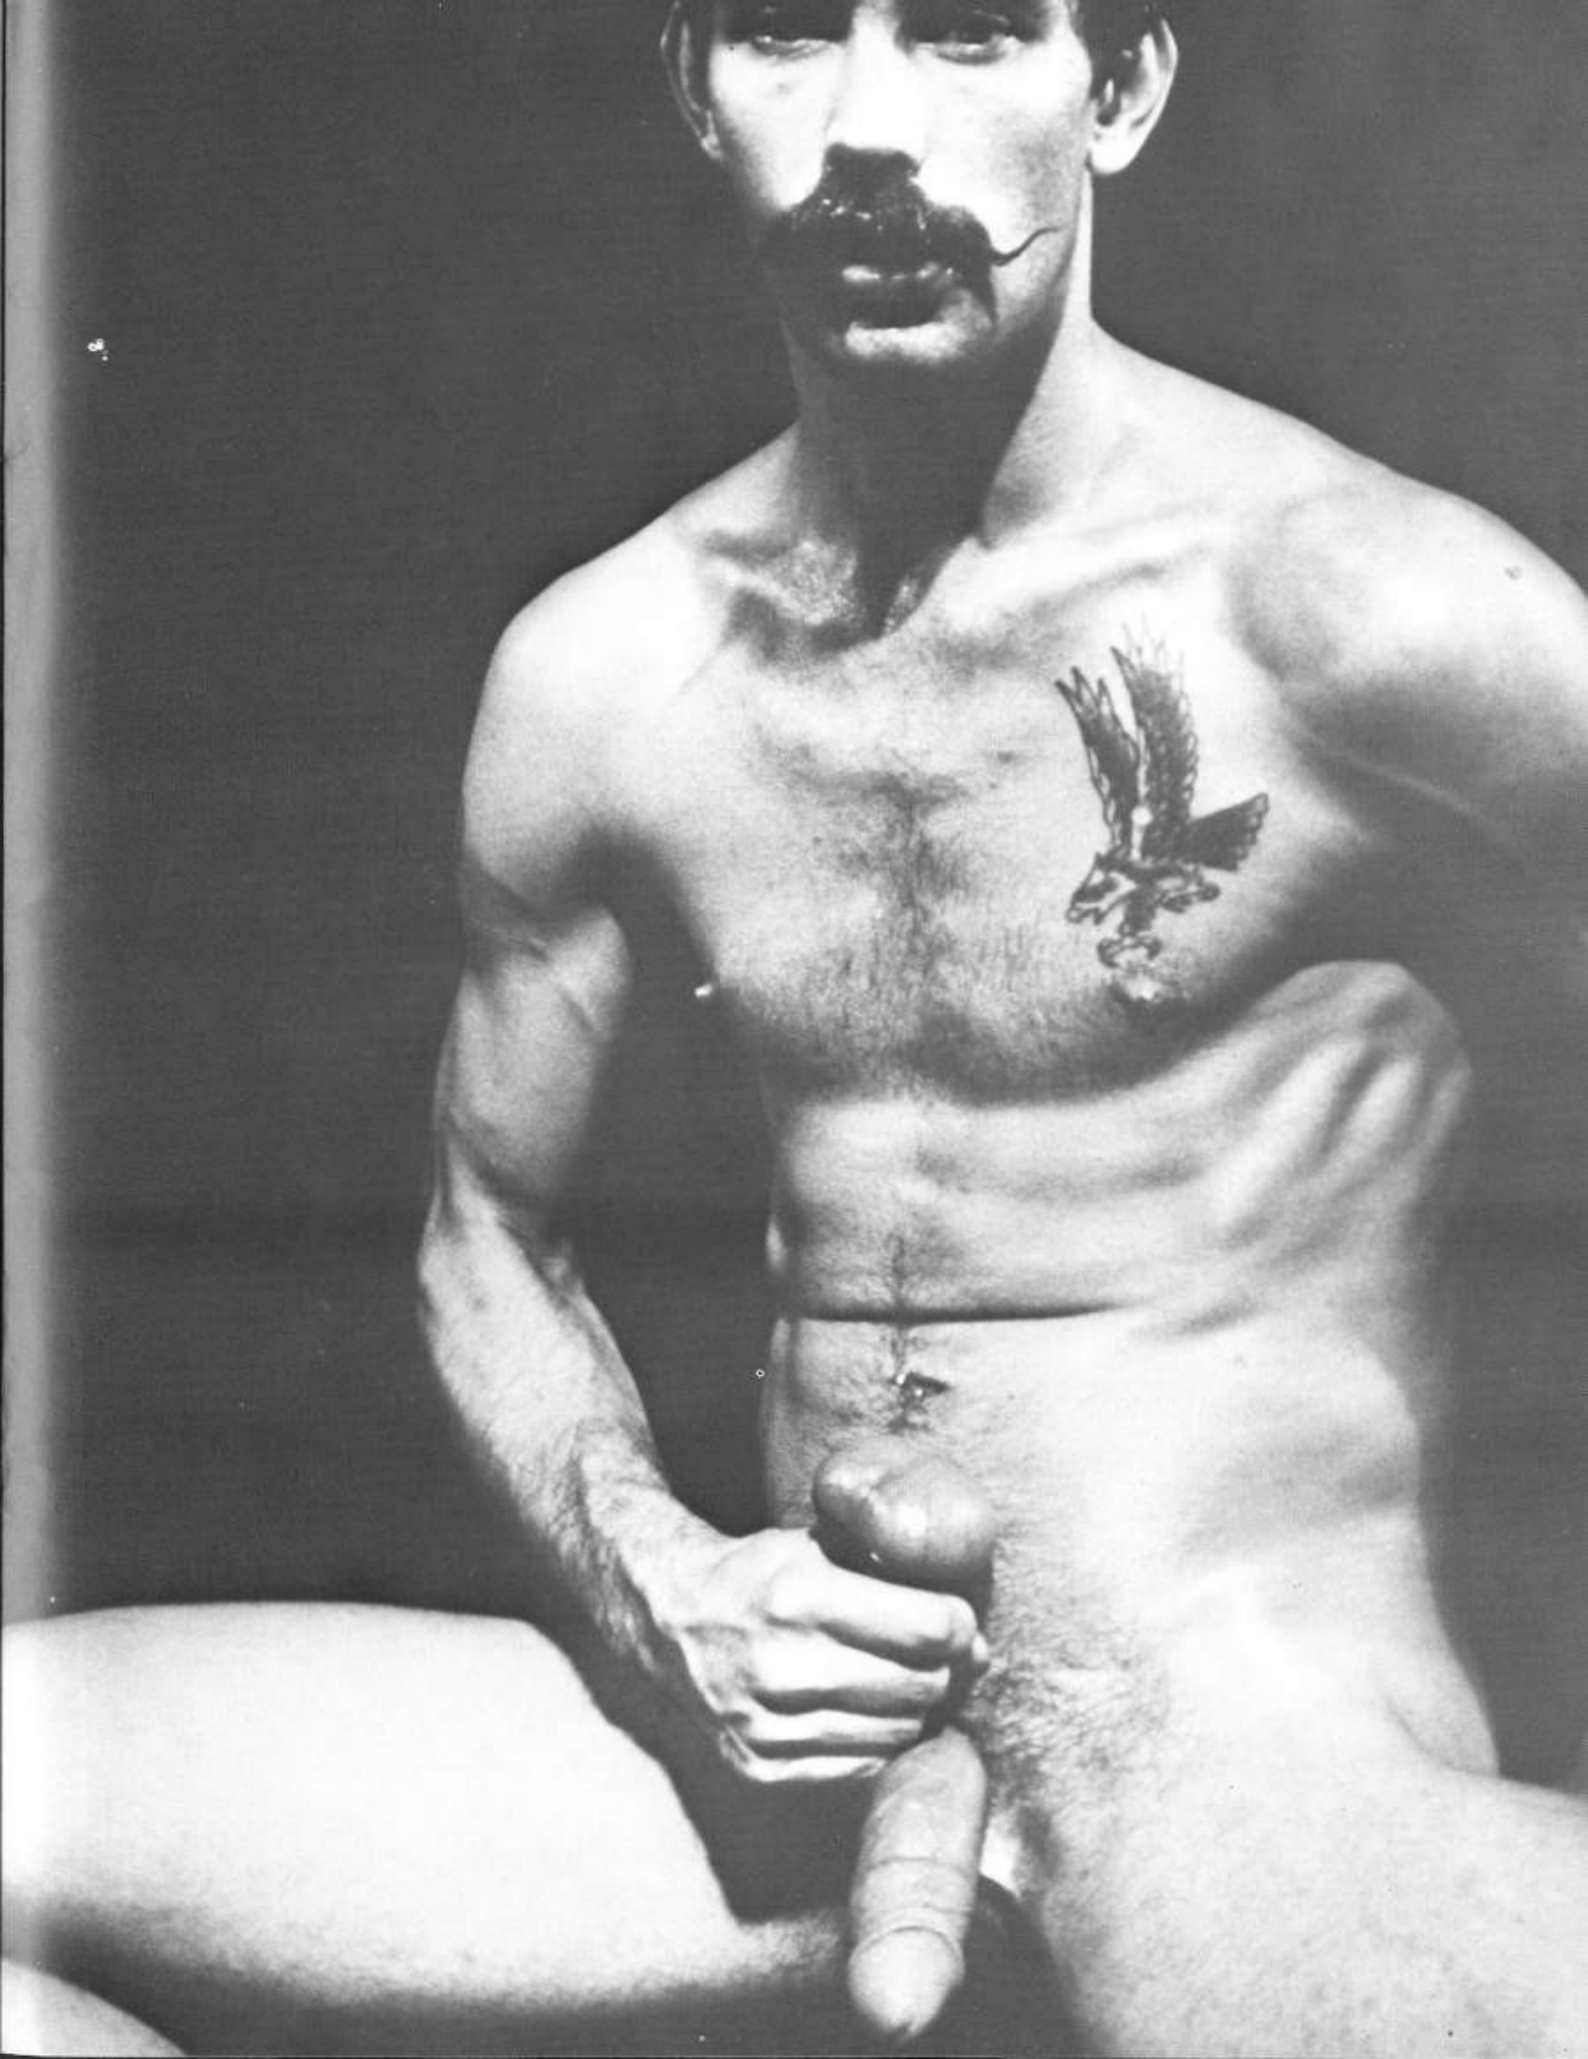
"I couldn't wait any longer. I had to run my wet tongue up and down the length of that gorgeous dick, imagining how hot it would feel in my mouth, how sweet it would taste."

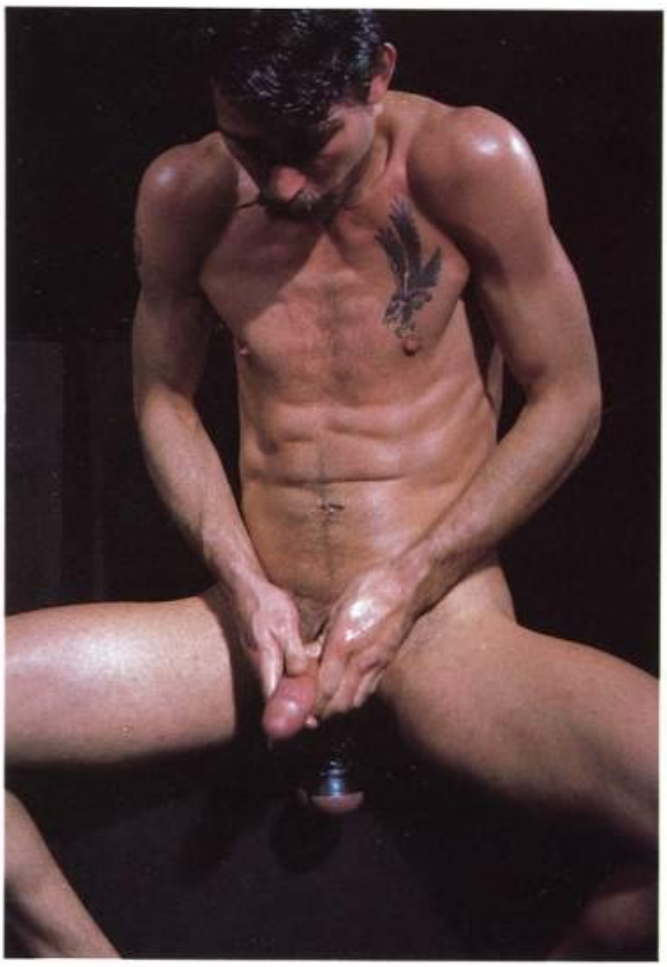




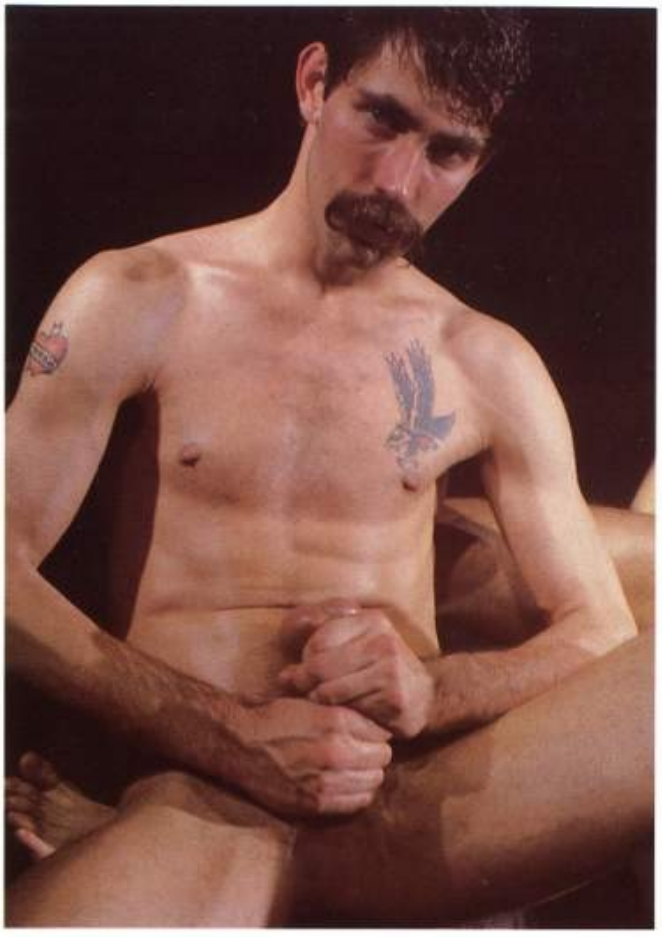


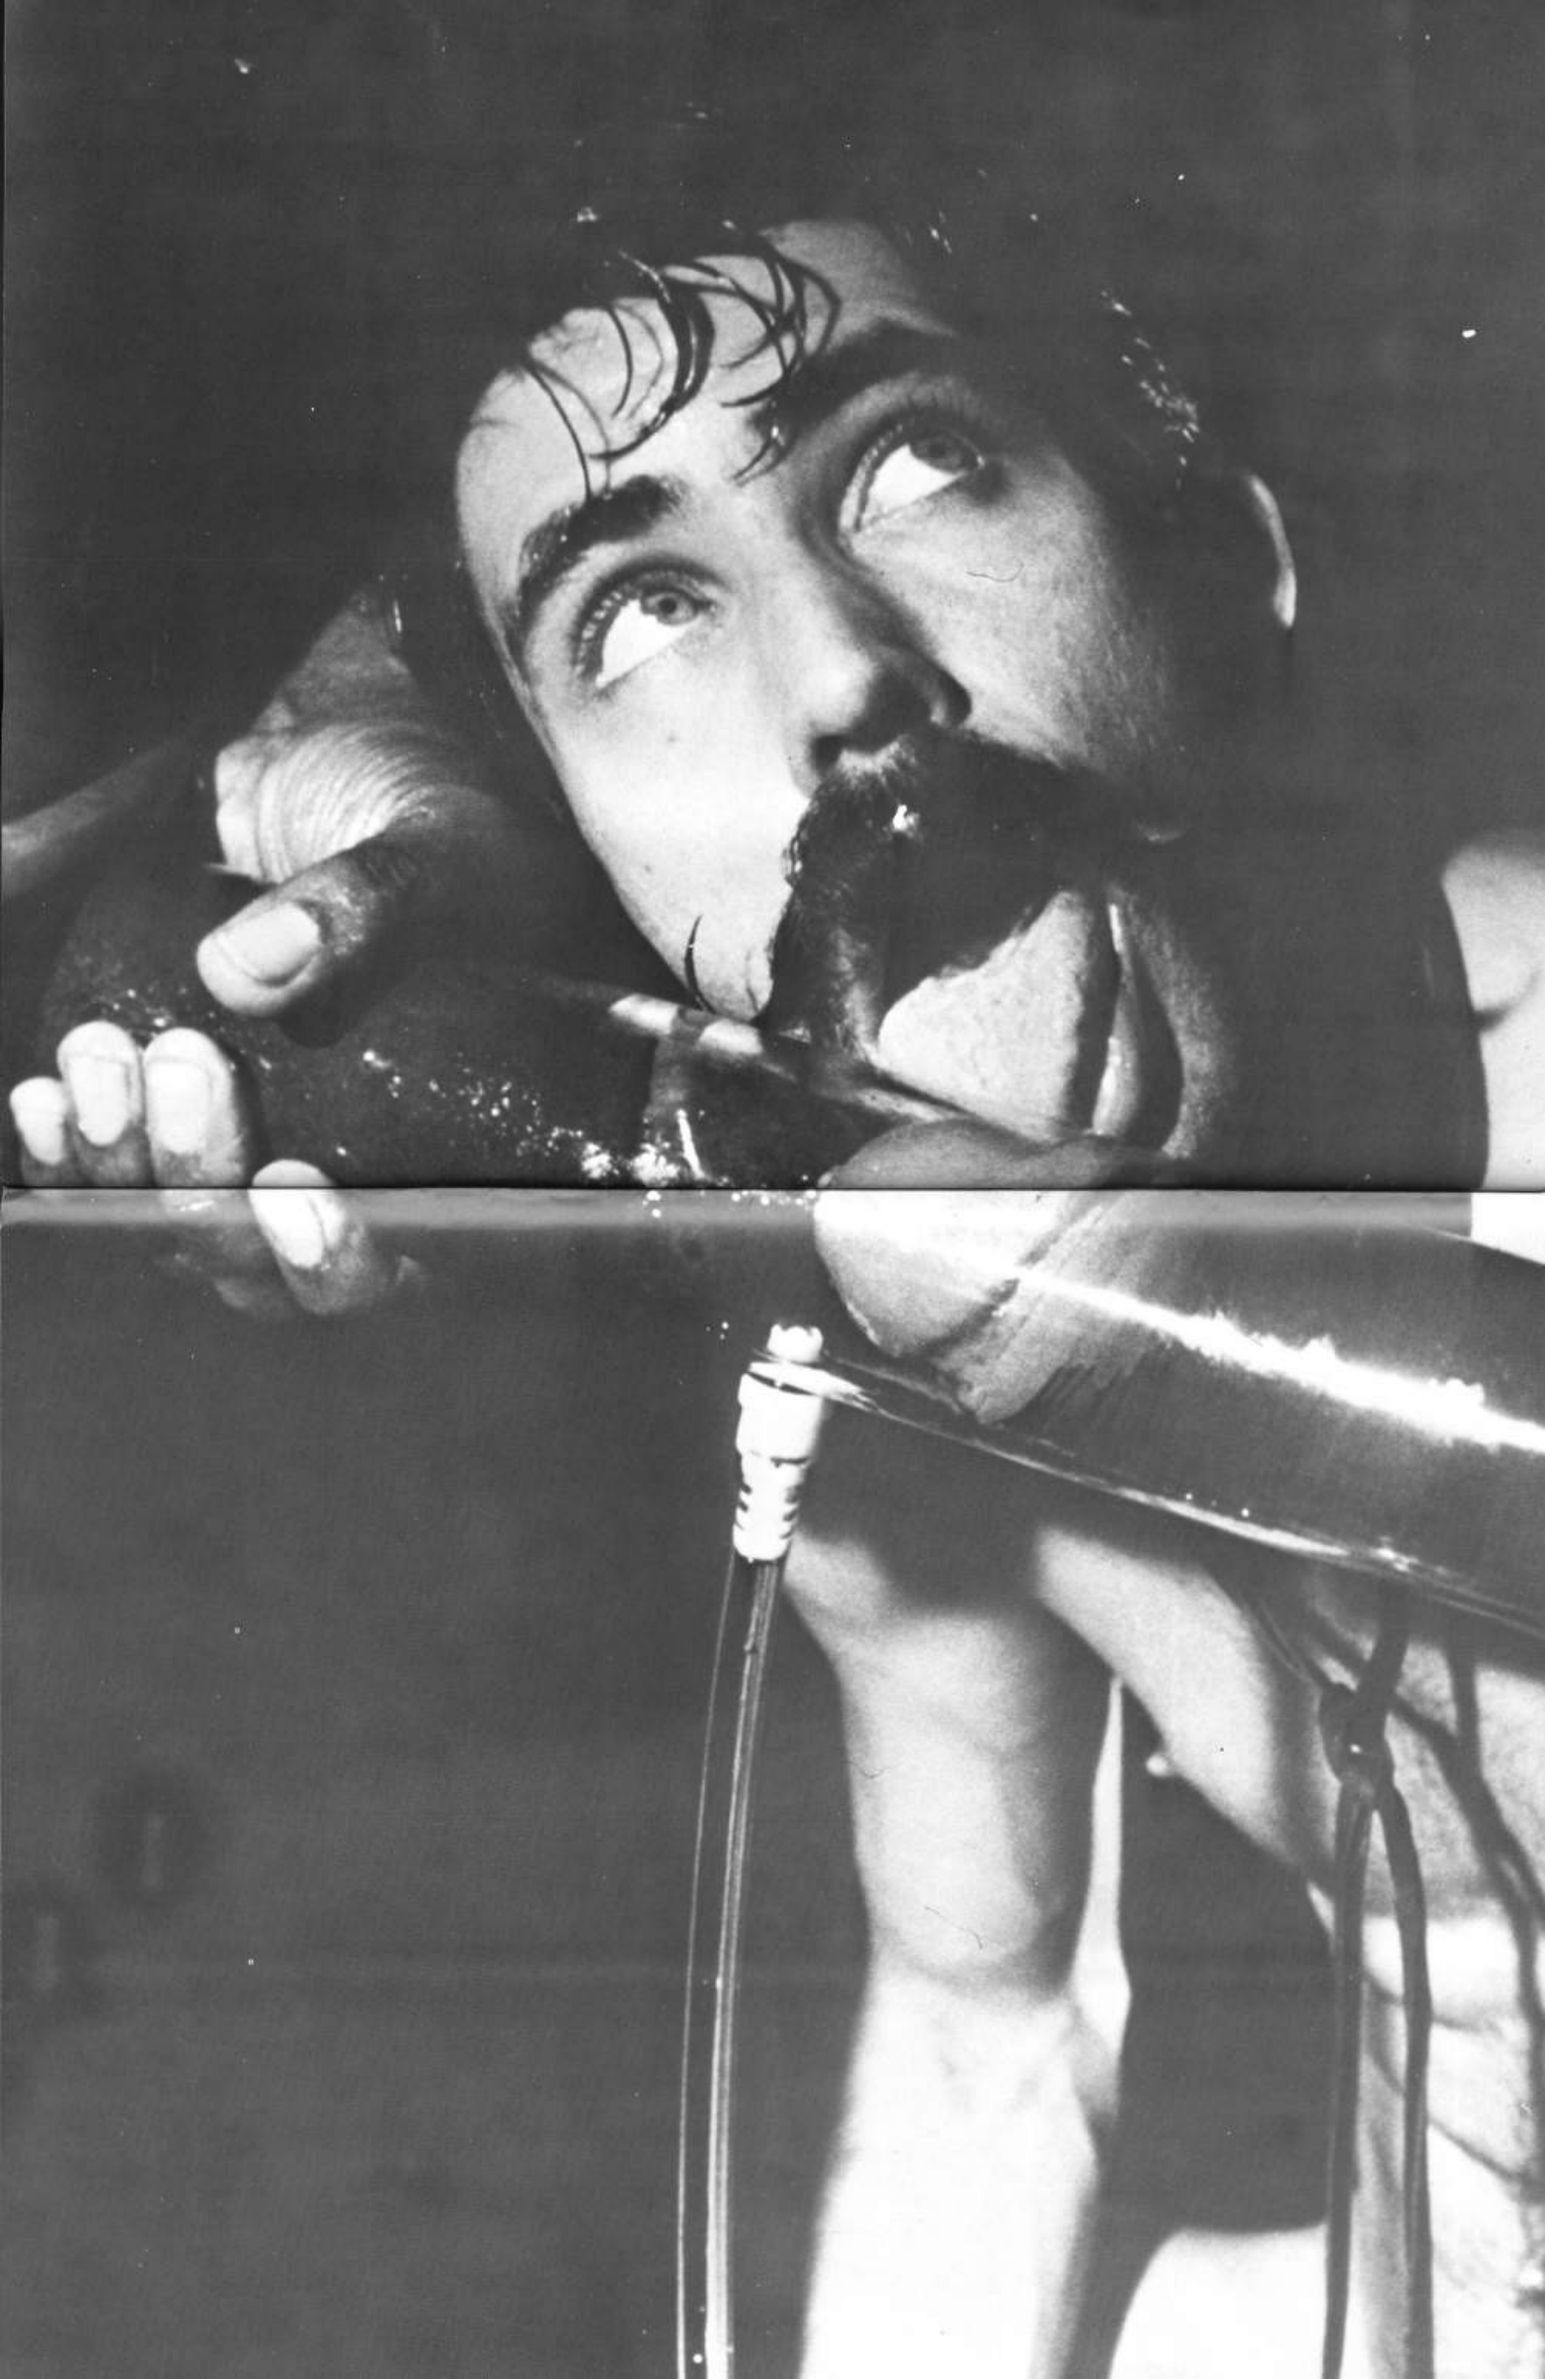


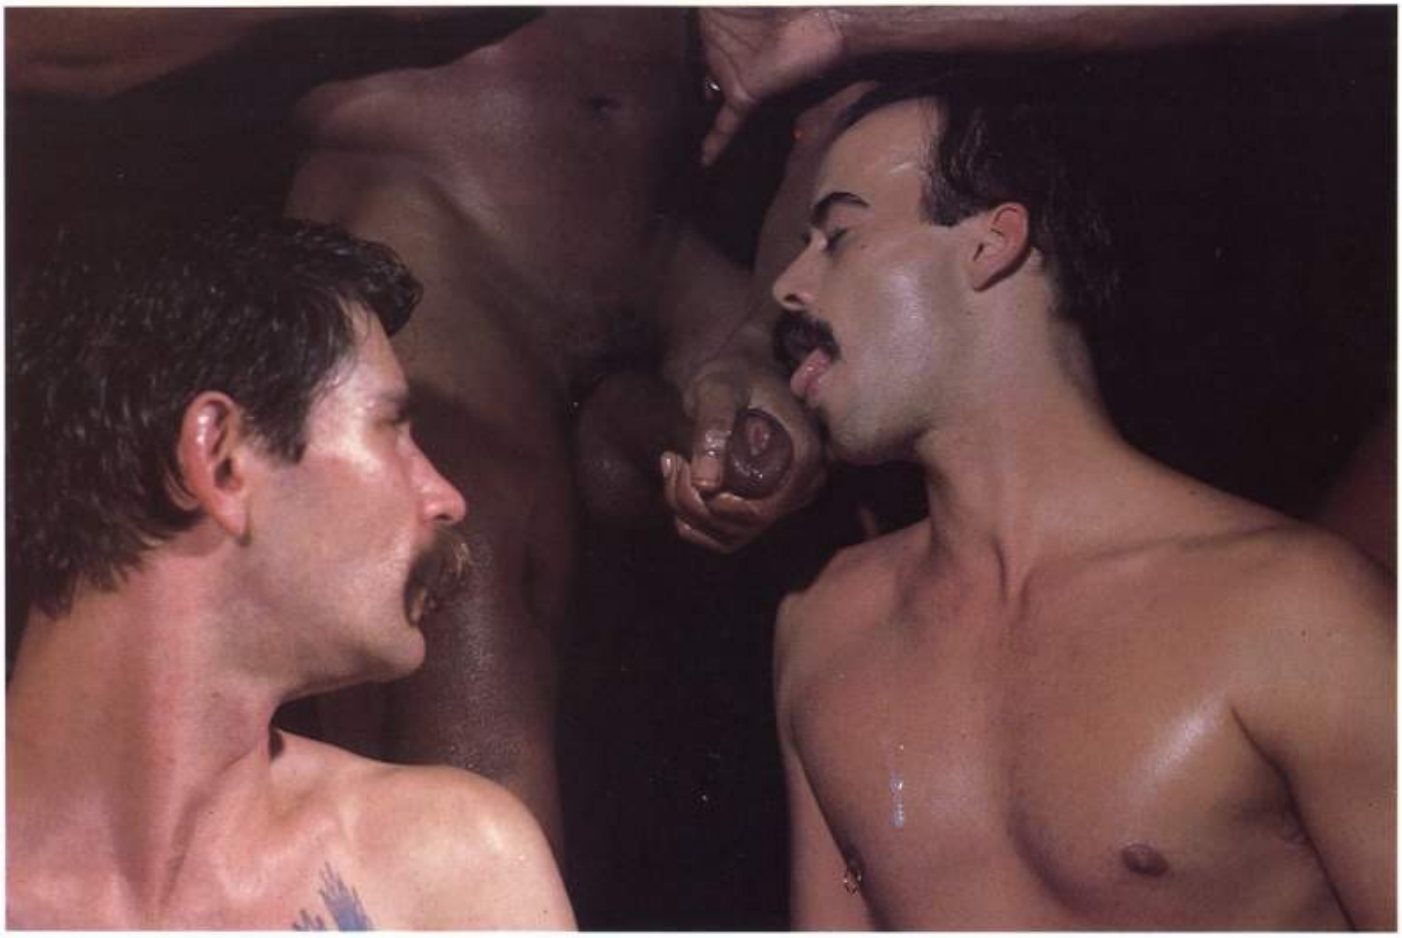


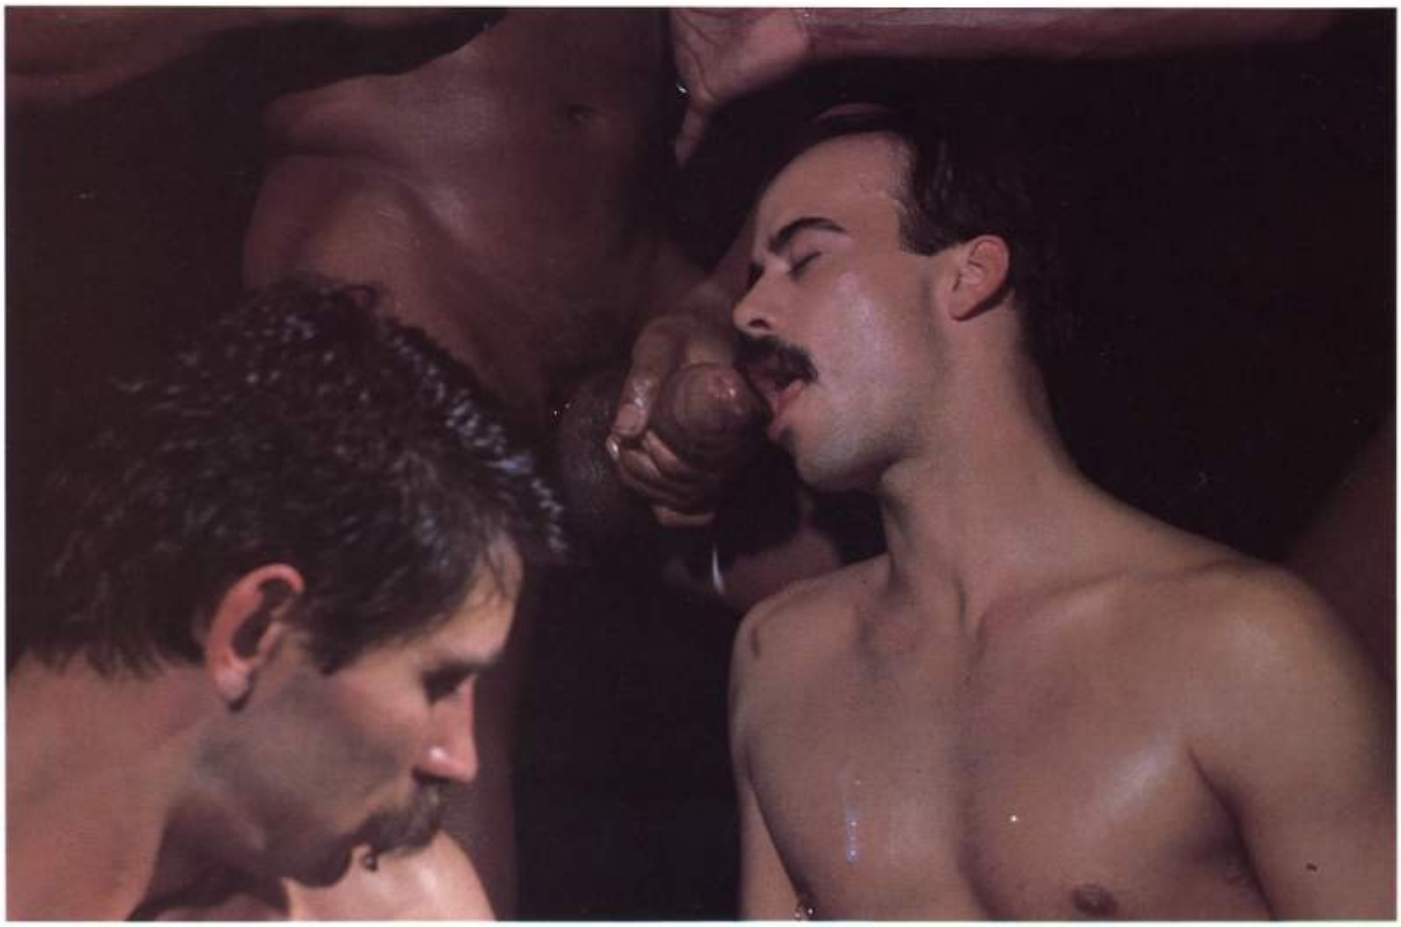


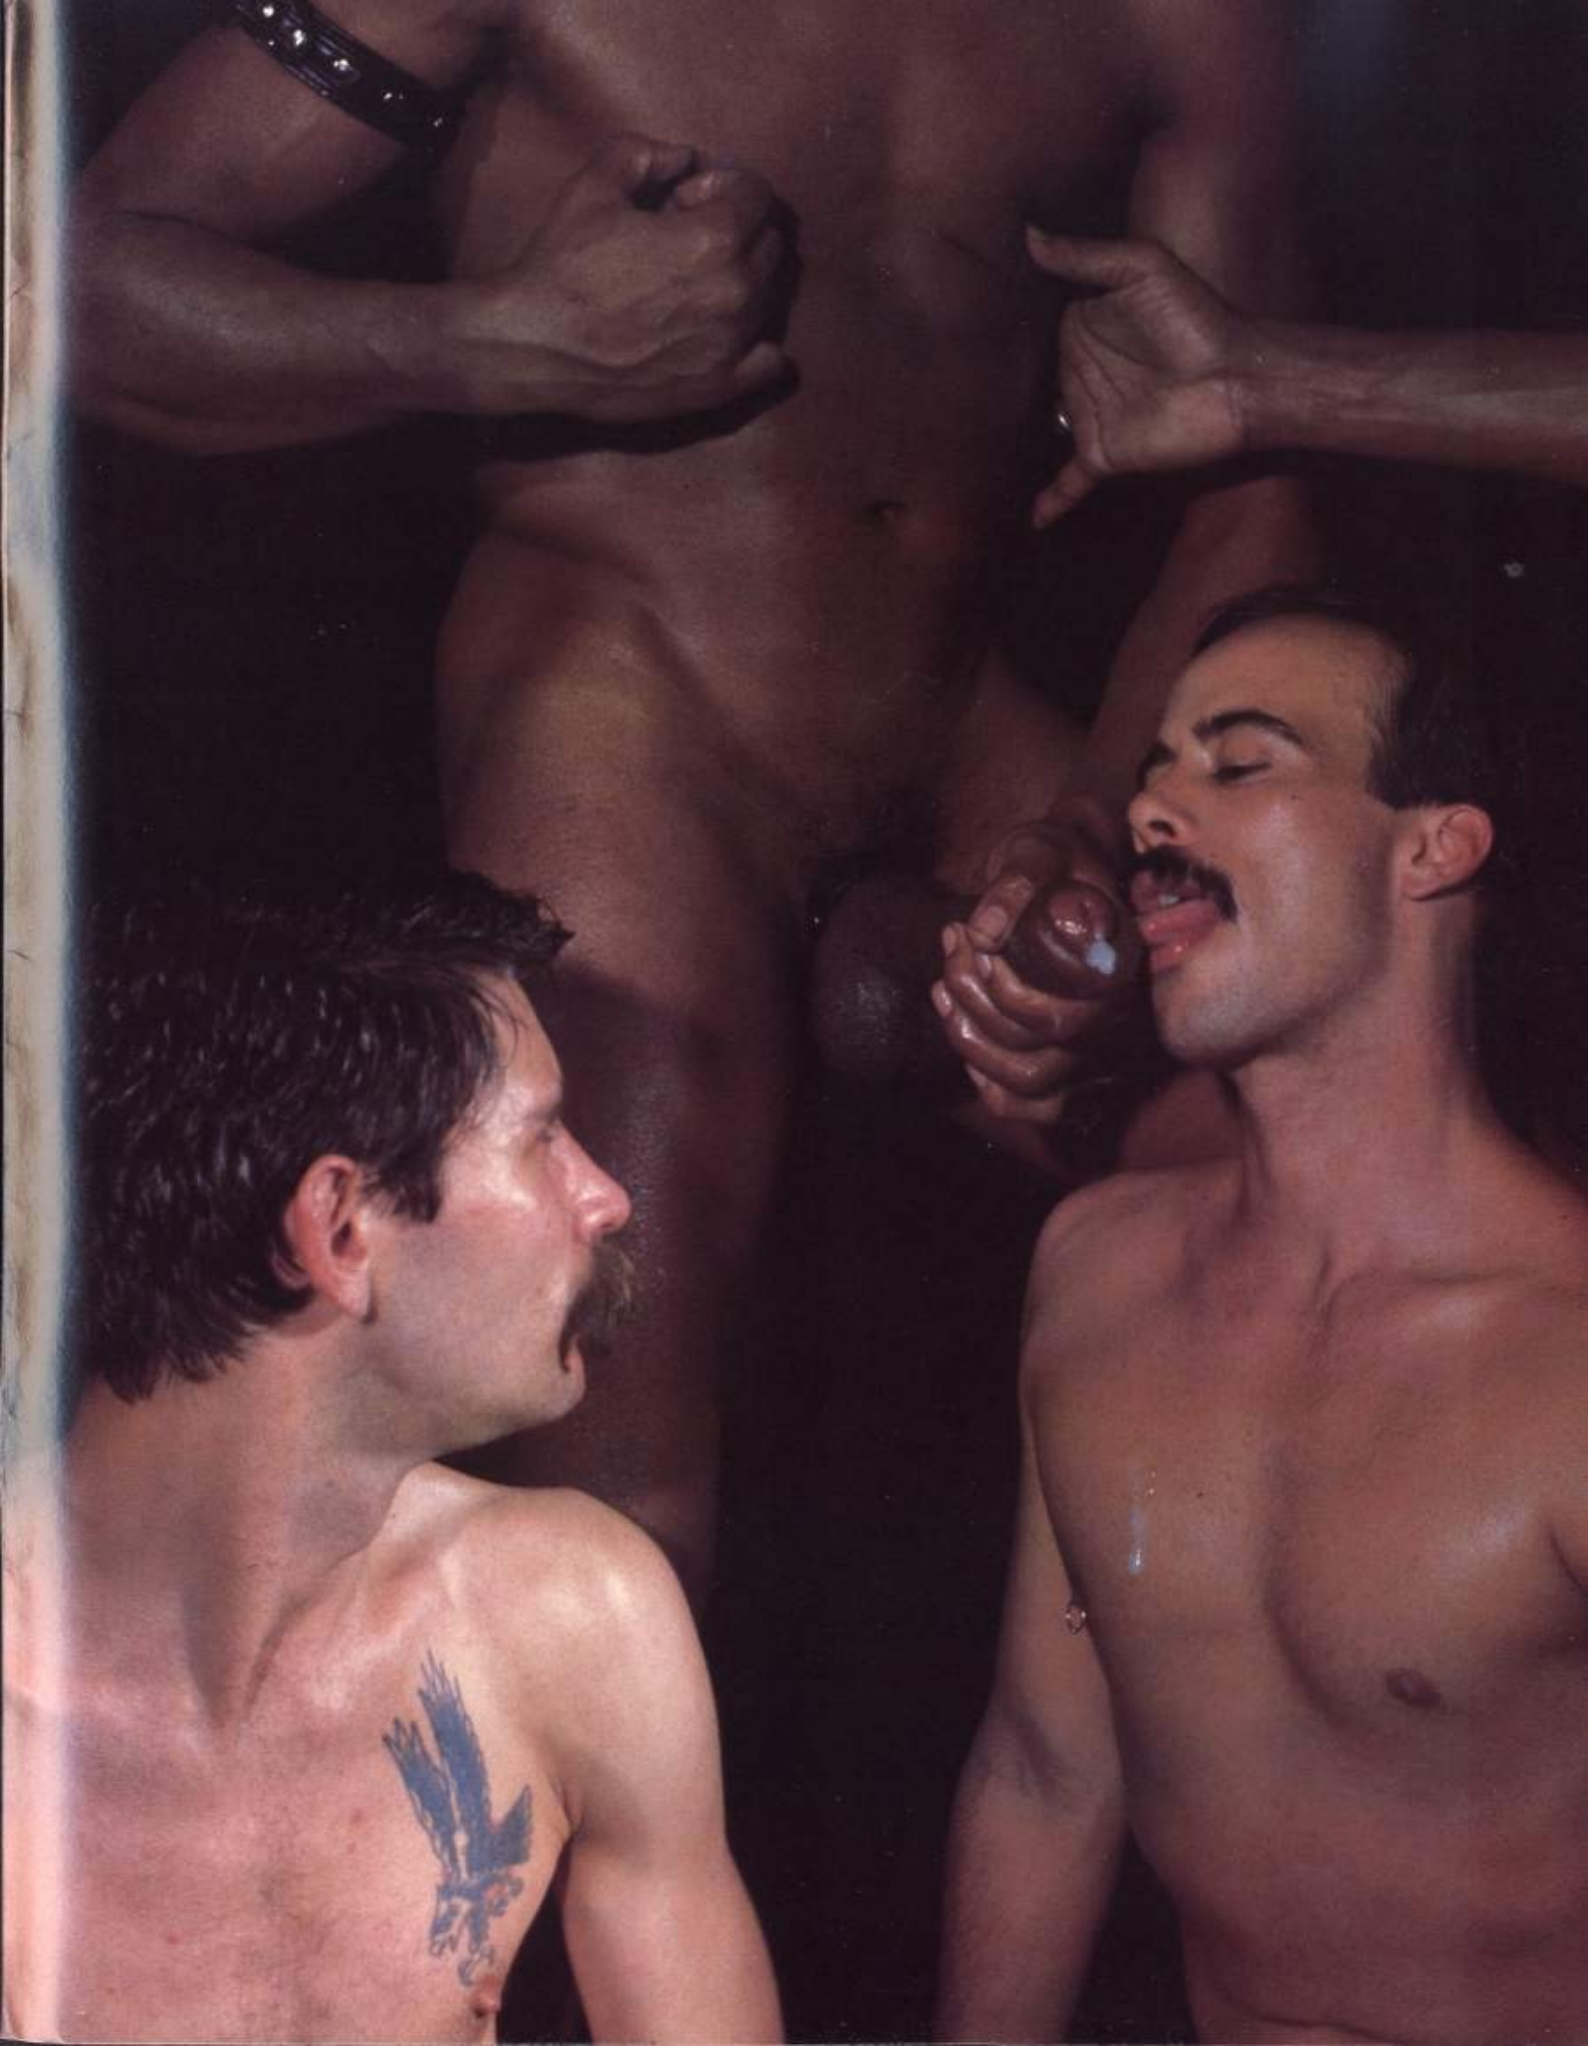
"The ball stretcher was wrapped tightly around my aching nuts bringing a combination of pain and pleasure that I couldn't resist. My dick started dripping with anticipation before I began the slow, delicious strokes."











"Hard, throbbing dicks were exploding all around me, long stringy gouts of come spurting everywhere, dripping and sliding down smooth skin, puddling in viscous white pools. I couldn't hold back any longer. My explosion hit!"
